PROPOSED MODIFICATION OF 4-YEAR TIME LIMIT

Dr. J. W. Moore Thinks Suggestion Unconstitutional. Bishop Eligibilities.

The amendment to the four-year time limit of pastors in the M. E. church, south, proposed by the committee on revisals of the general conmittee on revisals of the general conference, in session in Atlanta, is clearly unconstitutional, according to the opinion of Dr. J. W. Moore, former paster of Centenary church, who is visiting friends in Chattanooga.

Dr. Moore came up from Atlanta and will preach at Centenary Sunday morning.

The proposed amendment modifies the time limit, in that it provides that a pastor or presiding elder may be continued longer than four years, provided his return is requested by the church quarterly conference and a ma church quarterly conference and a ma-jority of the bishop's cabinet so votes. Dr. Moore said if the report with this amendment was adopted the bishops, in his opinion, would declare it invalid and then it must go to the annual conferences, where it would certainly be defeated.

Dr. Moore thinks the amendment in terferes with the rights of bishops which gives them general supervision over the church and limits their power

transfering it to the cabinets.

Dr. Moore thinks the conference will grant women laity rights.

The doctor says, of course, the greatest interest in the conference is the election of bishops.

The college of bishops recommended the election of five, but he thinks seven—two missionary bishops—will

be chosen. Among the names mentioned as eligible for the college are Drs. H. M. DuBose, John M. Moore, James Kil-gore, J. W. Dickey, W. S. Ainsworth, Sam R. Hays, Frank M. Thomas and

ROTARY GIVES BOOST TO RED CROSS WORK

Mrs. Powell Clayton Discusses Achievements of Local Chapter-Seagle Concert.

The Rotary club of Chattanooga has again gone "over the top" and demonstrated that they could accomplish almost anything they decided to undertake. It was announced at the meeting Thursday that with the exception of a few box seats and scat-tering seats in the balcony every seat for the Seagle concert at the Pilgrim Congregational church Friday evening for the benefit of the Red Cross had been sold. This does not mean, however, that the reservations have all been taken, as tickets in the hands of the members, which will be disposed of today and tomorrow, rep-resent a scat available for the concert. As the club only undertook to put over the concert at their last meet-ing they have, therefore, within less than a week, through active co-opera-tion, guaranteed one of the largest audiences that has ever turned out to hear Chattanooga's celebrated bari-

tone, Oscar Seagle.

The meeting Thursday was devoted almost entirely to the Red Cross. Mrs. Powell Clayton, head of the Chatta-nooga chapter, made an interesting talk, exhibiting one of the little packages of bandages and first-aid articles which are being turned out in large quantities. She also explained the activities of the local chapter, telling

Miss Elsie Johnson, who was present as a guest of the club, sang two This was the first time Miss Johnson has appeared before club and it was understood that it will not be the last. She was given an ovation at the conclusion of the song, such as the Rotarians are capable of giving when they desire to show their appreciation. R. R. Davenport made a brief talk on the work of the Red Cross, bringing out the fact that the local chapter had purchased, at cost, materials aggregating in value more than \$30,000.

COTTON MARKET PRICES ADVANCE 2 TO 4 POINTS

(Associated Press.)

New York, May 9.—The cotton mar-ket was quiet during today's early trading, with prices showing steadi-ness on further scattered covering or a moderate demand from other sources. a moderate demand from other sources. Better cables than due, the continued absence of spot pressure, and the reduction reported in the official marine war risks were factors on the opening advance of 2 to 6 points. Houses with Liverpool and Wall street connections were among the buyers, while the favorable weather map evidently failed to inspire any selling of consequence. July contracts sold up to 25.65 and October to 25.01, or about 18 points net higher. Private cables attributed the advance in Liverpool to prospects for further restrictions on imports.

advance in Liverpool to prospects for further restrictions on imports.

Covering was stimulated to some extent by the forecast for lower temperatures in the southwest, while there was also a little trade buying of October. July sold up from 25.75 and October to 25.08, or 25 to 27 points net higher in consequence, but trading continued very quiet and the market was a few points off from the best around midday.

Rumors of dissension in German

military circles and of British' successes on the western front were followed by a flurry of covering during the early afternoon. For a time the market was active and somewhat excited, with July selling up to 25.97 and October to 25.35, or 49 to 52 points net higher, but at this level demand tapered off and there were reactions of 10 to 15 points under realizing.

NEW ORLEANS COTTON.

New Orleans, May 9.—After a decline of 2 to 8 points around the opening here today, cotton felt buying based on fear of rains in the belt and advanced sharply, standing 14 to 17 points over yesterday's close at the end of the first half-

hour.

Reports of a better inquiry for low-grade cotton in the interior of the belt had a stimulating effect, and in the trading up to noon the advance was widened to 23@28 points.

A covering movement among shorts developed and the demand from this source was sufficient to put prices 46 to 58 points over yesterday's close at 1 o'clock.
